JAMADIUL AKHIR 1445

Speech

As intelligence increases, speech decreases.Saying 71-NahjulBalagha 'The day on which the Spirit and the angels shall stand in ranks; they shall not speak except he whom the Beneficent permits and who speaks the right thing.' (Naba:38) An intelligent person thinks before he speaks and most of the things a normal human speaks are of least value. Therefore, an intelligent person speaks only what is necessary. He passes his thoughts through Socrates' Triple filter test. This would allow him to speak only what is necessary and so his speech decreases.

The Day of Qiyamah is a personification of our actions in this world. Triple filter test

- Am I sure that what I am going to say is true?
- Is what I'm going to say a good thing?
- Do I really need to say it and is it useful?
